IDENTIFIERS	*West Virginia

ABSTRACT

This publication provides statistical data on enrollment, degrees conferred, faculty, and financing at West Virginia's 16 public colleges and universities. It also provides selected data for the 10 independent colleges and universities in the state. A highlights section notes a stable level of credit headcount enrollment over the previous year, Full-Time Equivalent (FTE) enrollment of 59,320, and 5.68 percent minority student enrollment. Chapter 1 provides headcount and FTE enrollment data from 1987-96 for the system and for individual institutions, as well as detailed enrollment data for fall 1996. A table summarizing continuing education activities is presented for the first time. Chapter 2 provides data on degrees conferred by program, institution, and gender. Chapter 3 provides data on faculty characteristics, including rank, highest degree held, age, tenure status, salary, and gender. Chapter 4 provides fiscal data, including total operating and capital expenditures, educational and general revenues, other revenue and expenditures, and student fees. (BF)

STATISTICAL PROFILE OF HIGHER EDUCATION IN WEST VIRGINIA

Enrollment

Degrees Conferred

Faculty Characteristics

Fiscal Data

The Central Office of the State College and University Systems does not discriminate on the basis of race, religion, national origin, gender, veteran's status, age or disability, in the administration of any of its activities, services, or with respect to any aspects of employment.

PREFACE

Statistical data on the enrollment, degrees conferred, faculty, and financing of West Virginia public higher education was first compiled in the early 1970's. Since 1982, this information, together with data from the state's independent colleges and universities, has been published in its present form as *The Statistical Profile of Higher Education in West Virginia*. Several changes in this 1996-97 edition are worthy of note. West Virginia Institute of Technology became part of the University System and was renamed West Virginia University Institute of Technology in July of 1996. Given the different time periods covered by this publication, "Tech" is shown with the State College System in the Degrees Conferred and Fiscal Data chapters and with the University System in the Enrollment and Faculty and Staff chapters. Also new to this year's *Statistical Profile* are data on classified and non-classified staff as well as on the continuing education activities undertaken at the institutions.

While the tables contained in this document only begin to depict the characteristics of West Virginia's twenty-six colleges and universities, the following pages offer insight into various dimensions of students, programs and degrees, faculty, and finances. Five and ten-year trends indicate enrollment growth and progress in such areas as student access and diversity. Both the University System Board of Trustees and the State College System Board of Directors believe this kind of information is vital to their decision-making.

This publication would not be possible without the continuing cooperation of numerous personnel at each of the sixteen public and ten independent institutions of higher education in the state. These individuals provide the data which form the basis for the tables in this report, and we gratefully acknowledge their assistance.

CHAPTER 1
Enrollment

The tables which follow summarize data submitted by West Virginia's public and independent institutions of higher education. Various information is collected throughout the entire academic year. This chapter illustrates this information for the three enrollment periods during the year, and additionally, attempts to show data by the numerous indicators reported. Five and ten-year trends have also been included. Since most of the data in this chapter are from Fall 1996, West Virginia University Institute of Technology is shown as part of the University System.

This year, in order to present a more complete picture of enrollment, this chapter includes a table summarizing continuing education activities.

Highlights of Public College and University Data

Fall 1996

- Credit headcount enrollment remained stable at 74,836, a .03% increase over Fall 1995.
- Modest increases were experienced in the full-time, male, and in-state populations.
- Eighty-four percent of students reported were classified as undergraduates; 80% were residents; 68% were full-time; and 55% were female.
- Total enrollment included 5.68% minority students; a slight increase over the Fall 1995 figure.
- The average age for undergraduate students was 24.1, while the overall average age for all students was 25.7.
- Full-time equivalent enrollment was 59,394, a .12% increase over Fall 1995.
- Of the 16,141 students participating in 704 continuing education activities, 11,910 students completed, yielding the award of 16,856.03 continuing education units.

Definitions of the various enrollment categories used by the Central Office of the State College and University Systems appear on the following page.

DEFINITIONS

Career-Technical Student-A lower-level undergraduate enrolled in a postsecondary certificate, diploma, or associate degree program of less than four years which prepares students for immediate employment.

Continuing Education-Non-credit seminars, workshops, institutes, short courses, etc., serving individuals and entities in a variety of educational, research, and service roles.

Credit Headcount Enrollment-A physical count of students enrolled in one or more courses for credit.

First-Professional Course-A course designed primarily for students enrolled in a program leading to a first professional degree.

First-Professional Student-A student enrolled in a program leading to the first professional degree in Dentistry (D.D.S.), Law (J.D.), Medicine (D.O. or M.D.), or Pharmacy (Pharm.D.).

First-Year Graduate Student-A graduate student who is enrolled in a master's degree program or who has completed fewer than 36 semester hours of graduate credit.

Foundation Level Course-A course which is preparatory for admission to a career-technical, college transfer, or four-year or five-year bachelor's degree program.

Full-Time Equivalent (FTE) Student-A statistic derived from the student credit hour output of an institution.

A. *Undergraduate FTE:* the equivalent number of students derived by dividing by 15 the total undergraduate student credit hours produced per semester in foundation, lower-level, and upper-level courses.

B. *First Professional FTE:* the equivalent number of students derived by dividing by 15 the total first professional student credit hours produced per semester in first professional courses (Law and Pharmacy only).

C. *Graduate FTE:* the equivalent number of students derived by dividing by 12 the total graduate student credit hours produced per semester in graduate courses.

D. *Medical FTE:* the same as the headcount enrollment (Dentistry and Medicine only).

Graduate Level Course-A course designed for students enrolled in a graduate degree program and normally limited to students holding a bachelor's degree.

Graduate Level Student-A student enrolled in a master's or doctoral degree program other than the first professional degree programs in Dentistry, Law, Medicine, and Pharmacy.

In-State Student-For West Virginia public institutions, a student who is paying in-state fees, excluding those involved in an SREB Common Market, Reciprocity, or Metro program; for West Virginia independent institutions, a student who lists WV as the permanent address prior to enrolling in the institution.

Lower-Level Student-An undergraduate enrolled in a postsecondary career-technical, certificate, diploma, or associate degree program, in a two-year college transfer program, or in a four-year or five-year bachelor's degree program who has not completed the sophomore year.

Non-Credit Student-A student who is enrolled only in non-credit courses or who is auditing credit courses.

Out-of-State Student-For West Virginia public institutions, a student who is paying out-of-state fees or who is involved in an SREB Common Market, Reciprocity, or Metro program; for West Virginia independent institutions, a student who does not list WV as the permanent address prior to enrollment in the institution.

Part-Time Student-A student enrolled for credits equal to fewer than 75 percent of the normal full-time load. For most undergraduates this would mean fewer than 12 semester hours.

Unclassified Student-A student who cannot be classified by level. Many unclassified students are permitted to take a limited or special selection of degree-credit courses without regard to requirements for a degree.

Undergraduate Student-A student who has not yet obtained a bachelor's degree.

Upper-Level Course-A course designed for juniors and seniors which is not normally open to freshmen and sophomores.

Upper-Level Student-An undergraduate enrolled in a bachelor's degree program who has completed the sophomore year.

*WVU Health Sciences Center has 15 Medical, 65 Dental, 3.40 Pharmacy, 67.58 Master's, and 58.25 Doctoral FTE students. WVU has 58.40 Law, 797.17 Master's, and 397.42 Doctoral FTE students.

Full-Time Equivalent Enrollment represents, for Undergraduates, the number of hours carried divided by 15; for Graduates, the number of hours divided by 12. This table separates Undergraduates first by Health and Engineering, then according to Course Level: Foundation, Upper and Lower. Undergraduate students taking graduate level courses are included in upper level.

Residency determined by fees paid (Cross-reference definitions on page 2).

Note: Figures in total column/row may not reflect true sum due to rounding of original figures which had more than two decimal places.

CHAPTER 2
Degrees Conferred (1995-96)

The tables in this chapter present an analysis of the degrees conferred and the teacher certifications awarded during the 1995-96 academic year by the public and independent institutions of higher education in West Virginia, as well as ten-year trends in total degrees. The section detailing programs of study offered by West Virginia institutions includes certificate programs of one-year duration at the undergraduate level which the rest of the chapter omits. Since the degrees conferred data provided are for the 1995-96 academic year, West Virginia Institute of Technology is included with the State College System.

Definitions

The National Center for Education Statistics' publication, *A Classification of Instructional Programs,* provided the background for the academic areas of study by which degrees were reported in this chapter.

Associate's Degree

A degree awarded upon completion of at least two, but fewer than four, years of work beyond high school.

Bachelor's Degree

A degree granted upon completion of an educational program requiring at least four, but not more than five, years of academic work in the liberal arts, sciences, or professional fields.

First Professional Degree

A degree which signifies the completion of the academic requirements for a selected profession, which is based on an educational program requiring at least two academic years of previous college work for entrance, and a total of at least six academic years of college work for completion. First professional degrees included in this report are the Doctor of Dental Surgery (D.D.S.), the Doctor of Medicine (M.D.), the Doctor of Osteopathy (D.O.), the Juris Doctor (J.D.), and the Doctor of Pharmacy (Pharm.D.).

Master's Degree

A degree customarily granted upon successful completion of one (sometimes two) academic years of work in the liberal arts and sciences beyond the bachelor's degree. The master's degree in professional fields is an advanced degree beyond the first professional, but below the Ph.D., degree.

Post-Master's Degree

A degree awarded upon completion of an organized program of study beyond the master's degree, but does not meet the requirements of academic degrees at the doctoral level.

Doctoral Degree

The highest academic degree in a given discipline or profession, based generally on three or more years of graduate work, satisfaction of a foreign language requirement, and completion of a special study resulting in a dissertation approved by a committee of the faculty.

The boxes on these pages display the teacher certifications awarded by the State Department of Education after completion of approved programs at the institutions listed. For each institution, the level or levels of the certification are first, followed by the academic area or program description, and the number of certifications awarded. For example, the first item under West Virginia University above indicates that 11 certifications were awarded to teach in agriculture in grades 5-12.

CHAPTER 3
Faculty and Staff Characteristics, Fall 1996

The faculty tables in this chapter present faculty characteristics and remuneration at each West Virginia public institution of higher education. They include only those faculty who receive money disbursed by our institutions. The table on page 48 includes all instructional and other faculty; all other tables in this chapter exclude faculty in the medical/dental schools, although other health sciences faculty in the areas of nursing and pharmacy are included. These populations may differ from nationally recognized definitions for faculty, particularly those used in the data collections for the United States Department of Education, the American Association of University Professors, and the Equal Employment Opportunity Commission.

In order to give a more complete picture of all personnel employed at the institutions, this year the chapter contains a table showing classified and non-classified staff, including those in the medical/dental schools and other health sciences.

Since the tables in this chapter reflect Fall 1996 data, West Virginia University Institute of Technology is included with the University System.

Definitions

Full-Time Classified and Non-Classified Staff: All employees other than faculty and who are employed by the institution in a full-time capacity.

Full-Time Instructional Faculty Member: A person employed by the institution in a full-time capacity, either in teaching and/or research with perhaps additional administrative or other duties. The full-time instructional faculty member's primary function is to teach. Graduate assistants, teaching fellows, lecturers, and laboratory assistants are included only if they meet the preceding criteria.

Full-Time Other Faculty Member: A person employed full-time in an academic capacity and granted faculty rank, but whose primary assignment is not instructional. These assignments may include extension, research, public service, etc.

FTE Instructional Faculty: A statistic combining the number of full-time instructional faculty members and the equivalent percentage for part-time instructional faculty members.

Highest Degree Held by Faculty: The number/percentage of faculty possessing a terminal degree (doctoral or professional) is one indicator of academic quality of an institution. The proportion of faculty with a doctorate also influences the expenditures for faculty salaries.

Nine-Month Salary: A typical academic year contract, which may be for nine or ten months of service to the institution. Whether the contract salary is paid in nine or twelve monthly increments is not relevant. The amounts shown under nine-month salary data do not include summer school salaries, which are not a part of the regular academic year. Salaries of faculty who are paid on a 12-month basis are multiplied by .818 to arrive at a nine-month salary.

Part-Time Faculty Member: A person employed in a part-time capacity, usually employed on a per-course basis. Part-time faculty do not usually receive fringe benefits, and, since remuneration is based solely on teaching load rather than on advising and administrative duties, pay may be at a substantially lower rate than that of full-time faculty.

CHAPTER 4
Fiscal Data (1995-96)

Traditionally, the higher education governing boards have played an active role in the management of all facets of public higher education. Among their many responsibilities are the supervision and control of the financial affairs of the sixteen institutions. This chapter summarizes the current fiscal operations of the State College and University Systems of West Virginia. Information presented in this report is drawn from audited financial statements provided by each institution after the close of the fiscal year. The period covered by this report extends from July 1, 1995 through June 30, 1996.

Fiscal accountability initiatives of the two public higher education governing boards have been incorporated into the following pages. These initiatives require each institution to utilize standardized reporting categories and to change their current accounting practices from a cash basis to an accrual basis format to conform with reporting standards and principles established by the American Institute of Certified Public Accountants and National Association of College and University Business Officers. Due to the above mentioned reporting changes, Educational & General Revenues for FY 1995-96 include funds received for student aid and West Virginia University's Private Research Corporation. These changes should be taken into consideration when making comparisons with prior years' data.

By design, this chapter deals with a discussion of current operating and capital revenue and expenditures. Therefore, certain special fund groups such as Loan Funds (student loans), Agency Funds (institution acting as financial agent for payor), etc. are omitted. Current funds are those resources generated and expended for current operations. Current funds are separated into two major groups, unrestricted and restricted. Unrestricted current funds do not have restrictions placed upon their use by outside donors or agencies, whereas restricted funds have spending limitations applied to them by outside parties.

Tables in this chapter are grouped by system. Although certain comparisons among institutions and systems are possible, and often beneficial, the reader should recognize that any interpretations drawn may be distorted due to differences in mission, enrollment, academic programs, funding levels, geographic locations, faculty characteristics, and other factors. Institutions may also vary with respect to the degree to which they undertake research, public service, and provide services of a non-educational nature to students, faculty and staff. The University System institutions in general, and the health science institutions in particular, are inherently different, and although presented together, the data should not be used for comparative purposes.

Note: The movement of West Virginia University Institute of Technology from the State College System to the University System will not be reflected until 1996-97. During FY 1995-96, West Virginia University Institute of Technology is reported under the State College System.

Total Operating and Capital Revenue and Expenditures

The following two tables reflect the total operating revenue and expenditures of the State College and University Systems of West Virginia for fiscal year 1995-96. They are presented and categorized as follows:

Educational and General operations of the institutions include the basic Instruction, Research, and Public Service activities as well as the necessary ancillary services of Academic Support, Student Services, Operations and Maintenance of Plant, General Institutional Support, and Scholarships and Fellowships.

Auxiliary Enterprise operations primarily involve providing services of a non-educational nature to students, faculty and staff. Even though the existence of these services is important, they are not directly related to the fulfillment of the institutions' educational objectives. Included among these operations are housing and dining, intercollegiate athletics, student unions, bookstores and certain parking, transportation and other operations.

The **Plant Funds** category is used to account for unexpended plant funds reserved for acquisition of long-lived assets for institutional purposes; funds set aside for the renewal and replacement of institutional properties, debt service charges and retirement of indebtedness on institutional plant and the cost (or fair value at time of donation) of long-lived assets (other than those of endowment and similar funds) and the sources from which the cost is funded, including associated liabilities.

Revenue Category Descriptions

Tuition and Fees include **all tuition and fees charged to students for educational purposes**. Refunds to students are subtracted from the figure. The value of waivers is included in this amount with a corresponding amount shown in the expenditure for student aid.

Governmental Appropriations are **separated into the Federal, State and Local** line items and include all unrestricted amounts received for current appropriations and all current restricted funds received that have been expended. These funds do not include governmental grants and contracts.

Gifts, Grants, and Contracts include those funds which are normally split between the governmental grants and contracts category and the private gifts, grants, and contracts category.

> **Governmental Grants and Contracts** are those unrestricted resources received by grants, contracts, and cooperative agreements with government agencies for current operations and all resources received through restricted grants, contracts, and cooperative agreements to the extent expended.
>
> **Private Gifts, Grants, and Contracts** represent **amounts received from non-governmental entities**, including amounts received for the furnishing of goods and services of an instructional, research or public service nature. These amounts are also segregated into unrestricted and restricted classifications.

Sales and Services of Educational Activities line includes **revenues that are incidental to the educational activities** to which they are associated. These sources might include film rentals, laboratory testing services and publications revenues.

Investment Income category shows the amount of revenue generated from interest income and gains and losses on investments. A separation by unrestricted and restricted earnings is based on the respective nature of the invested assets.

Other Sources of Current Revenue category **accumulates a variety of items** which might include miscellaneous rentals and sales, unallocated revenues, and other incidental receipts for which there is no specific category.

Transfers and (Additions) Deductions details the **transfer of funds between fund groups** and other changes to the fund group that would not be appropriate to display elsewhere.

Transfers are reported in two types, **mandatory** and **non-mandatory**.

> **Mandatory** transfers include transfers from the current funds, either restricted or unrestricted, **arising out of binding legal agreements related to the direct institutional financing of educational plant**, such as amounts for debt retirement, interest, and required provisions for renewals and replacements of plant, and grant agreements with governmental agencies, donors, and other organizations to match gifts and grants to loan and other funds.
>
> **Non-Mandatory** transfers include transfers from (to) current funds group to (from) other fund groups made at the **discretion of the governing board or management** to serve a variety of objectives, such as general or specific plant additions and voluntary renewals and replacement of plant.

Other Changes include those current fund items not recorded elsewhere.

*Excludes health sciences institutions, System Offices, Central Office and WV Network for Educational Telecomputing.

**Both the Board of Directors and Board of Trustees approved fiscal accountability initiatives which are being incorporated into current reporting requirements. These initiatives required each institution to utilize standardized reporting categories and to change their current accounting practices from a cash basis to an accrual basis of accounting to conform with reporting standards and principles established by the AICPA and NACUBO. Due to the above mentioned reporting changes, E&G Revenues beginning with FY 1993-94 include WVU's Private Research Corporation. These changes should be taken into consideration if any comparisons are made with prior years' data.

EDUCATIONAL AND GENERAL EXPENDITURE CATEGORIES

Instruction includes expenditures for all activities that are part of an institution's instructional program. This would incorporate credit and non-credit courses; academic, vocational, and technical instruction; remedial and tutorial instruction; regular, special and extension sessions; and department chairpersons and administrators for whom instruction is an important role.

Public Service encompasses funds expended for activities established primarily to provide non-instructional services beneficial to individuals and groups external to the institution including community service and cooperative extension activities. This category is comprised of endeavors such as conferences, institutes, general advisory services, reference bureaus, radio and television, consulting, and similar non-instructional services to particular sectors of the community.

Research includes all expenditures for activities specifically organized to produce research, whether commissioned by an agency external to the institution or separately budgeted by an organizational unit within the institution.

Academic Support represents those funds expended for services that support the institution's primary missions. It includes libraries, museums, academic administration, educational media services, academic personnel development, course and curriculum development and other direct support of instruction, research and public service.

Student Services includes expenditures for offices of admissions and the registrar and activities with the primary purpose of contributing to students' emotional and physical well-being, as well as intellectual, cultural, and social development outside the context of the formal instruction program. These programs would include student activities, cultural events, student newspapers, intramural athletics, student organizations, counseling and career guidance, student aid administration and student health services.

Operation and Maintenance of Physical Plant incorporates all expenditures of current operating funds for the operation and maintenance of the physical plant, including payments to provide services and maintenance related to grounds and facilities. This category also includes utilities, insurance, fire protection, and similar items, but does not include expenditures made from the institutional plant fund accounts (i.e., construction).

General Institutional Support reports the expenditures for central executive-level activities related to management and long-range planning for the entire institution such as planning and programming, legal services, fiscal operations, administrative data processing, space management, employee personnel and records, purchasing, security, and printing.

Scholarships and Fellowships includes expenditures for scholarships, waivers, and fellowships from restricted or unrestricted funds. These are typically in the form of grants resulting from selection by the institution or from an entitlement program.

*Excludes health sciences institutions, System Offices, Central Office and WV Network for Educational Telecomputing.

**Both the Board of Directors and Board of Trustees approved fiscal accountability initiatives which are being incorporated into current reporting requirements. These initiatives required each institution to utilize standardized reporting categories and to change their current accounting practices from a cash basis to an accrual basis of accounting to conform with reporting standards and principles established by the AICPA and NACUBO. Due to the above mentioned reporting changes, E&G Expenditures beginning with FY 1993-94 include Scholarships and Fellowships, and for WVU, will also include their Private Research Corporation. The above changes should be taken into consideration if any comparisons are made with prior years' data.

Regular Student Fees

Regular student fees at West Virginia public colleges and universities, although commonly referred to as tuition, are comprised of five major components: Tuition, Registration, Higher Education Resource Fee, Faculty Improvement and College Fees. Funds generated by these fees are used for various purposes including capital improvements and debt retirement, faculty salaries, instructional supplies and equipment. College Fees are generally used to support student activities, student centers, intercollegiate athletics, and operations.

The governing boards annually approve all changes to each fee component, based on justifications provided by the institutions. The following tables summarize regular student fees for the past ten years on a semester basis.
